

Shock Sequence

Hands-on defib practice — full sequence reference

Amber bold = say it out loud

- 1 **"PRECHARGING"** — confirm DEFIB mode, press CHARGE

Do not stop compressions.

- 2 **Hold compressions — next compressor get ready**

≤10 sec. Finger on pulse. Stop compressions only once charged.

Rhythm can't be ID'd during compressions

- 3 **Announce rhythm**

So the whole room hears intention.

- 4 **Branch on rhythm — if no pulse**

SHOCKABLE — VF/pVT

Verbal **"CLEAR"**

**LOOK UP — NOT MONITOR —
BEFORE PRESSING SHOCK**

Resume compressions — don't recheck pulse

OR

NON-SHOCKABLE — PEA/ASYSTOLE

"DISARMING" — press DISARM (yellow)

Resume compressions immediately — don't recheck pulse

Pulse rechecked only at next rhythm check (~q2min)
